1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. Continuation of 4(e) Other: The claim amendments of 7/1/11 do not appear to be based on the previous set of claims filed on 11/9/10, resulting in inaccuracies with respect to the indication of changes made to the instant claims. For instance, the amendments filed 11/9/10 to claim 51 inserts the word "and" before "light source" in line 3 and deletes the word "mounted" in line 4. The current amendment to claim 51 does not show the previously inserted word "and" (note line 3) and still includes the word "mounted" (note line 5). In addition, the current amendment inserts "having a diameter in a range of 0.6 mm to 1.6 mm" (lines 14-15). However, this limitation was previously inserted in claim 51 on 11/9/10 in line 13), yet it does not appear at the same point in claim 51 of the instant amendment. Claim 63 includes similar defects. Furthermore, at least claims 59 and 83 are amended (note differences between these claims in the instant amendment and the one filed 11/9/10) but do not include the proper status identifier or proper indication of changes that were made.
